Ms. Donna Searcy, Secretary
FEDERAL COMMUNICATIONS COMMISSION
1919 M Street NW Room 222
Washington, D.C. 20554

Re: PR DOCKET NO. 92-235
OPPOSITION TO DOCKET

Dear Ms. Searcy:

I would like to strongly voice my opposition to the "refarming" of two-way radio frequencies.

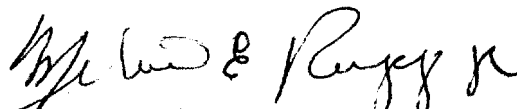

In addition to the potential compromise of the public's safety, this notice of proposed rule making #92-235 should be withdrawn considering the COST! We elect our public officials expecting that they will at least TRY to save the entire nation from bankruptcy.

This refarming proposal is a travesty. Has any thought been given whatsoever to the COST? There is no cost effective method of modifying existing equipment. Where is the money supposed to come from when all businesses are in danger of closing due to the extra burdens placed on them by ideas such as this. This would cost us \$100,000 minimum; we have over 200 employees, and simply could not handle the expense.

I request that the commission withdraw this proposal.

Very truly yours,

RUPP RENTAL & SALES CORP.

Melvin E. Rupp, Jr.
President
